# HONDA INNOVATION

## SOICHIRO HONDA

*“We have one future and it will be made of our dreams, if we have the courage to challenge convention.”*

*Soichiro Honda*

We have lived by this philosophy since 1948, when the Honda Motor Corporation was formed. Big dreams produced a massive future. Today, Honda produces innovative and reliable products for almost every application – from lawnmowers to corporate jets. Every product is designed to make life more joyful for you and less impactful to the planet.

### NSX SUPER CAR

The Honda NSX is the rebirth of an icon representing the ultimate combination in power, sportiness and efficiency. Dubbed the new sports experience, it was developed under the concept of a “human-centred supercar”.

The NSX puts the driver first in every aspect of its design, leveraging its state-of-the-art hybrid supercar power unit, body and chassis to deliver an exceptionally intuitive and immediate response to driver inputs.

### MOTORCYCLES

Our designers focus on the rider rather than the machine. We use this process to create motorcycles that win Moto GPs and perform perfectly on the daily commute. What’s more, all the knowledge is shared, from 1800cc grand tourers such as the Goldwing, to 50cc fun bikes such as the CRF50.

### BLUE SKIES FOR OUR CHILDREN

As pioneers of environmental technologies, our engineers have been exploring ways for our children to enjoy a free and sustainable future since the company’s inception. Today, sustainability is still top of our agenda. In June 2011 we pledged to cut our 2000 CO<sub>2</sub> emission levels from all our global products, equipment and corporate activities by 30 per cent by the end of 2020. We’re also firmly committed to powering our vehicles with innovative renewable technologies wherever we can.

BLUE SKIES FOR OUR CHILDREN

### HONDAJET

We push the boundaries of human mobility whether it’s on the road, on the track or in the sky. In 1997 a thought became a sketch. Instead of putting the engines below the wing, we put them above it. By 2000 HondaJet had progressed to the point that a new research facility was established exclusively for its development. Today, HondaJet is in the air. With its all-composite fuselage, it is lighter, quieter, more fuel efficient and emits as little as 40 per cent of the pollutants of comparable aircraft.

### ASIMO

Back in 1986, our engineers created ASIMO: the world’s most advanced humanoid robot. ASIMO cleverly recreates human motion to walk and run on slopes and uneven surfaces. It can make smooth turns, climb stairs and pick up objects. ASIMO can even respond to simple voice commands and recognise the faces of a select group of individuals. Using its camera eyes, ASIMO can skillfully map its environment to navigate around stationary and moving objects.

### WORLD’S LARGEST ENGINE MANUFACTURER

Honda is the world’s largest manufacturer of engines. For the fiscal year ending March 2017, Honda produced and marketed more than 28.8 million units globally for a diverse array of automotive, motorcycle, marine and power equipment products. Honda offers a complete line of small, general purpose engines for commercial, rental industry and consumer applications. Honda engines are some of the quietest and easiest to start of their kind, even in harsh commercial and construction environments. These attributes have made Honda engines the popular choice for original equipment manufacturers looking to add value to their own brands.

# QUIETER AND CLEANER

Honda 4-Stroke engines are lower pitched, quieter and emit less CO emissions than 2-Stroke engines. Plus, they're built stronger to last longer.

4-STROKE ADVANTAGE

**HONDA**

STRONGER | CLEANER | QUIETER | STARTS-FIRST-TIME  
4 YEAR WARRANTY

Standard on all Honda products

## NO FUEL MIXING

4-Stroke engines run on unleaded fuel meaning you'll never have to mix oil and petrol ever again!

## STARTS FIRST TIME

It's OUR reputation to make sure our products Start First Time, Every Time.

## BETTER FUEL ECONOMY

Engineered to the highest levels, tested in harsh Australian conditions and built to last.

### WARRANTY

Backed by more than 400+ Honda Specialist Dealers Australia wide, each Honda product offers extensive warranties ensuring peace of mind the next time you upgrade to a Honda.

# DOMESTIC RANGE – NO FUEL MIXING

- MicroCut® Twin Blades for improved mulching performance
- 2 year warranty†

Battery charger: L08BATA351MA

HRX217K5HZUA

# LAWNMOWER FEATURES

### NeXite® Deck

Extremely tough polymer material that will never rust, resists corrosion and abrasion and is super strong. HRX models only.

### Steel Deck

Rugged, durable steel deck is designed for long life. HRS, HRR and HRC models only.

### Electric Start

Effortless self charging key start, to reduce the need for "plug-in" charging. HRX217HZU only.

### Mow Safe – Engine Brake

A safety feature that stops the blades and engine within 3 seconds upon release of the handle.

### Mow Safe – Blade Brake

A safety feature that stops the blades within 3 seconds upon release of the handle, while the engine continues to run.

### Side Chute

Unique to the HRS model, the side chute system means no wasted time emptying a grass catcher. HRS216PKU only.

### 4-in-1 Versamow System™ with Clip Director®

Honda's revolutionary Versamow System™ allows you to mulch, bag, discharge and shred leaves – or even a combination of mulching and bagging! Just slide the convenient Clip Director® knob to choose how much grass is bagged or mulched. No tools or costly attachments are needed. It's the ultimate in convenience and versatility. HRX models only.

### 3-in-1 System with Clip Director®

Slide the Clip Director® to switch from mulching to bagging or discharge with just one touch. No need for a mulch plug or other attachments. HRR models only.

### MicroCut® Twin Blade System

Honda's exclusive MicroCut® Twin Blade System uses four cutting surfaces that result in ultra fine clippings for superior mulching and up to 30% more clippings per bag. HRR, HRX and HRC models only.

### Smart Drive

Easily adjust the mower's speed to your pace by rotating the control. Five position adjustable control for comfort. Variable speed from 0-6.5km/h. HRR216VKU and HRR216VYU models only.

### Hydrostatic Cruise Control

Honda's Hydrostatic Cruise Control allows precise speed control that's fully adjustable from 0-6.5km/h. HRX models only.

### Easy Fold Handle

Easily adjust the handle to different comfortable mowing positions, or fold over for storage. HRS, HRR and HRX models only.

- Tilling depth 280mm
- Tine width 914mm
- 4 year domestic warranty\*

F501K8UH

## FR750

4-STROKE  
RRP **\$4369**

- GX200 manual start 4-Stroke engine
- 2 forward gears and 1 reverse
- Tilling depth 120mm
- Tine width 600mm
- 4 year domestic warranty\*

**Counter Rotating Tines**

FR750K3U

## FRC800

4-STROKE  
RRP **\$3829**

- Big GX240 4-Stroke engine
- 3 forward gears and 1 reverse
- Tilling depth 100mm
- Tine width 508mm
- 4 Year domestic warranty\*

FRC800K1U

# VOLUME PUMPS

## WX10

- Economical 1" volume pump
- Maximum total head 37m
- Maximum suction head 8m
- Delivers 120L/min capacity

4-STROKE  
RRP **\$499**

WX10TU

## WX15

- Economical 1.5" volume pump
- Maximum total head 37m
- Maximum suction head 8m
- Delivers 280L/min capacity

4-STROKE  
RRP **\$699**

WX15TU

## WB20

- Portable 2" volume pump
- Maximum total head 32m
- Maximum suction head 8m
- Delivers 620L/min capacity

4-STROKE  
RRP **\$799**

WB20XT3DRXU

## WB30

- Portable 3" volume pump
- Maximum total head 28m
- Maximum suction head 8m
- Delivers 1100L/min capacity

4-STROKE  
RRP **\$999**

WB30XT3DRXU

# TRASH PUMPS

## WT20

- Portable 2" trash pump
- Maximum total head 30m
- Maximum suction head 8m
- Delivers 710L/min capacity

4-STROKE  
RRP **\$1999**

WT20XK4UD

## WT30

- Portable 3" trash pump
- Maximum total head 27m
- Maximum suction head 8m
- Delivers a massive 1210L/min capacity

4-STROKE  
RRP **\$2299**

WT30XK4UD

# ENGINES

## GX MINI 4-STROKE

- Five models to choose from, including 25cc and 35cc variations
- Fully inclinable OHC engine

## GC & GCV SERIES

- Three variants to choose from
- Horizontal and vertical shaft available
- OHC domestic engine

## GX SERIES

- More than 70 model variants to choose from
- Horizontal shaft
- OHV commercial engine

## GXV SERIES

- Three horsepower models to choose from
- Vertical shaft engines
- OHV commercial engine

## GX V-TWIN SERIES

- New generation V-twins
- Three horsepower choices, seven models
- OHV commercial engine

## GP SERIES

- 160cc
- Perfect for light use and domestic applications

# CHOOSING THE RIGHT GENERATOR

## 3-STEP PROCESS TO ENSURE YOU GET THE RIGHT GENERATOR

### 1 WHAT DO YOU WANT TO POWER?

Whether you have a small caravan or something a little more substantial, knowing your appliance ratings is going to help you in the long run. Write a list of all the appliances you want to have running at one time. Then find out the ratings of each appliance. You need to take into account start-up power.

### 2 FACTOR IN START-UP POWER

Start-up power is simply the power an appliance needs to begin operating. Appliances that run an electric motor (air conditioners, drills and sanders) can require 3-4 times the operating load but this is usually only needed for a very short period. Check the compliance plate on the unit for specifications.

### 3 PICK THE GENERATOR THAT SUITS YOUR NEEDS

If you look at your list, there's a high chance you're not going to need everything running at once. A kettle draws a lot of power but only runs for a minute or so, it won't hurt to turn off some appliances while the kettle boils. Just make sure you have the essentials covered. Let's say your total running power requirement is 1500W, with a start-up power requirement of 1900W, then the Honda EU22i Generator will be the right fit.

If you are unsure, consult your Authorised Honda Dealer.

### Air conditioning units for caravans

If your caravan has an air conditioner then you need to make sure your generator can handle the power required for different situations. If you are in warmer climates trying to make your caravan cooler, then your air conditioning system is going to work harder, and therefore require more watts. Check with your manufacturer what the maximum operating load that the air conditioner will require is and pick a generator that will suit.

EU10i

4-STROKE  
RRP **\$1499**

- Maximum output 1000W/240 volt AC and 8 amp DC to run appliances and charge automotive batteries simultaneously
- Whisper quiet operation from 52dB(A)
- Delivers better than commercial quality electricity
- Delivers greater fuel efficiency via the built-in Eco-Throttle
- Engine is protected via low oil alert system
- Up to 8 hours of continuous operation on a full fuel tank
- Lightweight 13kg

EU10i1U

EU30iu HANDY

4-STROKE  
RRP **\$3369**

- Maximum output 3000W/240 volt AC and 8.3 amp DC to run appliances and charge automotive batteries simultaneously
- Whisper quiet operation from 57dB(A)
- Delivers better than commercial quality electricity
- Starts first time, every time
- Up to 7.7 hours of continuous operation on a full fuel tank
- Delivers greater fuel efficiency via the built-in Eco-Throttle
- New high speed multi-point alternator is integrated into the engine to reduce size and weight
- Low oil alert system protects engine
- Lightweight for easy transportation – weighs only 35kg
- Easy use handle and high mobility tyres

EU30iK1U

EU30is –  
ELECTRIC START

4-STROKE  
RRP **\$4199**

- Maximum output 3000W/240 volt AC and 12 amp DC to run appliances and charge automotive batteries simultaneously
- Whisper quiet operation from 52dB(A)
- Delivers better than commercial quality electricity
- Up to 20 hours of continuous operation on a full fuel tank
- Delivers greater fuel efficiency via the built-in Eco-Throttle
- Low oil alert system protects engine
- Hassle-free push-button electric start

EU30iS1U

EU70is

4-STROKE  
RRP **\$6599**

- Maximum output 7000W/240 volt AC
- Hassle-free push-button electric start
- Greater performance via automatic Eco-Throttle
- Easy storage and transport with a one push 'H' shaped fold down handle and large diameter wheels
- Better than commercial quality electricity thanks to microcomputer controlled Sine Wave Inverter
- Up to 18 hours of continuous operation on Eco-Throttle\*
- Whisper-quiet operation from LwA 90dB(A)

EU70iSUT

Lifting kit: 06531Z11E00ZA  
Wired remote control cable:  
10m – 32380Z37800ZA  
30m – 32380Z37820ZA

\*With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only.

# SUPER QUIET GENERATORS

# NEW

The world's best selling leisure generator just got a whole lot better! With 200W MORE power, the all-new Honda EU22i Generator can power more than ever before. Used for leisure, back-up power and for the job site, it really packs a punch!

## EU22i GENERATOR

4-STROKE  
RRP **\$2099**

- Maximum output of 2200W/240 volt AC and 8.3 amp DC to run appliances and charge automotive batteries simultaneously
- Delivers better than commercial quality electricity
- Delivers greater fuel efficiency via the built-in Eco-Throttle\*
- Engine is protected via low oil alert system
- Increased diameter of oil filler for improved draining and catching of oil
- Improved recoil starter handle with new metal guard
- Up to 8 hours of continuous operation on Eco-Throttle\*
- Whisper quiet operation from LwA 91dB(A)\*\*
- Lightweight: 21kg
- Reliable 4-Stroke GXR120 engine
- EU22i engine is 20% larger in capacity than the EU20i
- Revs lower @1600W than the EU20i Generator
- A fuel shutoff valve allows the engine to continue to run until the majority of the fuel in the carburettor is consumed and the engine shuts off, preventing stale fuel issues and is useful for storing the generator

\*With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only.  
\*\*LwA refers to sound power level and is measured at rated load. This figure can only be compared to other LwA models.

# INDUSTRIAL GENERATORS

EM10000

4-STROKE  
RRP **\$5990<sup>+</sup>**

- Maximum output 9000W/240 volt AC
- 6.5 hours continuous operation on a full fuel tank when operated at rated load (8kVA)
- Enhanced product competitiveness by V-Twin engine that offers more fuel economy and less noise
- Extended operating time with a large capacity 31 litre fuel tank
- Easy-to-use control panel featuring 3 x 15 amp 240 volt outlets, 1 x 60 amp 240 volt outlet (plug included)

\* Not sold in South Australia

EM10000KIUH

EP2200CX

4-STROKE  
RRP **\$1099**

- Maximum output 2200W/240 volt AC
- Stable power source via Honda's Automatic Voltage Regulator (AVR) System
- Extended operating time with large capacity 14.5 litre fuel tank featuring a fuel gauge
- Easy-to-use control panel featuring 15 amp sockets, 8.3 amp battery charger and circuit breaker
- Weighs 45kg

EP2200CXUH

EM30

4-STROKE  
RRP **\$1999**

- Maximum output 3000W/240 volt AC
- Quiet operation at 68dB(A)
- Can run appliances and charge batteries simultaneously
- Weighs 31kg
- Up to 6 hours of continuous operating on a full fuel tank

EM30K3U

## HONDA CYCLO-CONVERTER TECHNOLOGY

Honda's Cyclo-Converter Generator model offers power that is equal in quality to AVR (Automatic Voltage Regulator) generators but is dramatically lighter. This lighter weight is achieved by reducing the number of traditional parts with a CPU (Central Processing Unit). Honda Cyclo-Converter Technology offers the best power-to-weight ratio available anywhere. This is found on the EM30 model only.

EG3600CX

4-STROKE  
RRP **\$1939**

- Maximum output 3600W/240 volt AC
- Strengthened electric performance with D-AVR (Digital Auto Voltage Regulator)
- Extended operating time with large capacity 24 litre fuel tank and gauge
- Easy-to-use control panel featuring 15 amp sockets, 8.3 amp battery charger and circuit breaker
- Weighs 71kg

EG3600CXUH

Wheel kit: 06710Z22A30

EG4500CX

4-STROKE  
RRP **\$2099**

- Maximum output 4500W/240 volt AC
- Strengthened electric performance with D-AVR (Digital Auto Voltage Regulator) with inverter-like stable voltage
- Easy and reliable starting via the mechanical decompression system
- Fully welded steel frame
- Weighs 83kg

EG4500CXUH

Wheel kit: 06710Z22A30  
Lifting parts: Hanger 53150Z22E30ZA x 1  
Bracket 53154Z22E30ZA x 2  
Bolts 957010801607 x 4

EG5500CX &  
EG5500CXS

EG5500CX  
RRP **\$2399**

EG5500CXS - ELECTRIC START  
RRP **\$2799**

- Maximum output 5500W/240 volt AC
- High output performance and fuel efficiency via Honda's revolutionary GX390 engine
- Strengthened electric performance with D-AVR (Digital Auto Voltage Regulator) with inverter-like stable voltage
- Reduced noise and vibration levels with large 'silent' muffler and anti-vibration engine mounts
- Extended operating time with large capacity 24 litre fuel tank and fuel gauge
- Easy and reliable starting via the mechanical decompression system and electric start (available on EG5500CXS model only, battery not included)
- Added equipment and engine protection with AC/DC circuit breakers and oil alert
- Weighs 84kg (5500CX) and 87kg (5500CXS), and has a convenient full frame ideal for easy transportation and engine protection

- Easy-to-use control panel featuring 15 amp sockets, 8.3 amp battery charger and circuit breaker
- Fully welded steel frame

EG5500CXUH  
EG5500CXSUH

## †Operating Noise Level Calculation

LwA refers to sound power level and is measured at rated load, which is standardised by EU noise regulation. It is measured from 6 directions by a microphone placed 4 metres from the product in a closed anechoic room.

This room is not affected by environmental conditions.

dB refers to sound pressure level and is measured from 4 directions (front, back, right and left) by a microphone that is placed 7 metres from the product and 1.5 metres from the lawn ground.

It is not measured in a closed room. Therefore, the data is affected by environmental conditions such as temperature.

\*With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only. †D-AVR: Digital Auto Voltage Regulator. \*\*LwA refers to sound power level and is measured at rated load. This figure can only be compared to other LwA models.

All products purchased from an Authorised Honda Dealer are fully assembled and ready to go.

# BUYER BEWARE!

Honda has always been a market leader in producing quality, innovative and environmentally friendly products. Unfortunately, there are unscrupulous Australian retailers and individuals who want to take advantage of the Honda brand. Some of these retailers and individuals are knowingly importing Honda-branded products that aren't designed for Australian consumers or Australian conditions. These products are often sold without after sales support and warranties that only a genuine Honda product can offer.
